Summary

Full-stack software engineer building scalable web applications using TypeScript, Golang, React, and Next.js. Skilled in designing system architecture, RESTful APIs, and real-time systems.

Education

Bachelor of Technology (B.Tech)
LNCT College of Technology, Bhopal

📅 2021–2025
📍 Bhopal, Madhya Pradesh, India

Experience

Full Stack Developer
HaulDrive

📅 December 2025 – March 2026
📍 Remote

- Designed and implemented system architecture for both backend and frontend, ensuring scalability and maintainability.
- Built RESTful APIs and integrated frontend components using modern frameworks to deliver production-ready features.
- Collaborated with cross-functional teams to define technical requirements and deliver features on schedule.

Skills

- Programming Languages:** TypeScript, JavaScript, Python, Golang
- Frameworks & Libraries:** Next.js, React, Express, Socket.IO, Tailwind CSS, Prisma, Drizzle ORM, Gin, NestJS, FastAPI
- Databases:** MongoDB, PostgreSQL, MySQL, Redis
- Tools & Platforms:** Git, Docker, Linux, Vercel, AWS S3, CI/CD, GitHub Actions
- Concepts:** REST APIs, WebSockets, WebAssembly, Microservices, Agile, Object-Oriented Programming, System Design

Projects

Finalist *Next.js, DiscordJS, Docker, Redis, Postgres, Golang, Gin, AWS S3, Typescript, REST API* [Github]

📅 2026

- Built a configurable scrim management platform with customizable slot systems, serving gaming communities via Discord.
- Designed persistent data layer using PostgreSQL and Redis for tracking scrim history, team data, and player participation.
- Implemented automatic slot assignment with substitution and waitlist support, reducing manual coordination effort.

Chai-lang *Golang, WebAssembly, React, Tailwind CSS, Typescript* [Github]

📅 2025

- Designed and developed a programming language from scratch in Go, implementing lexer, parser, and code generator.
- Engineered the compiler to target WebAssembly, enabling client-side code execution in browsers with a React frontend.

sm-go-next *Next.js, Golang, Socket.IO, Drizzle, Cloudinary, Tailwind CSS, Typescript* [Github] [In Progress]

📅 2025

- Developed a full-stack social media platform with real-time messaging and live content updates using Socket.IO.
- Architected a scalable monorepo with end-to-end TypeScript type safety across frontend and backend services.

Shrinkr *Next.js, Golang, Zod, Tailwind, Postgres, Typescript, Docker* [Github]

📅 2025

- Built a full-stack URL shortener with custom back-half support, QR code generation, and link analytics.
- Integrated Stripe for payments and React Charts for traffic visualization; containerized with Docker.

rps-multiplayer *Javascript, Docker, Express* [Github]

📅 2024
