Summary

Full-stack developer building scalable web applications and backend systems with TypeScript, Golang, React, and Next.js, focused on system design, API development, and real-time systems.

Education

Bachelor of Technology (B.Tech)

📅 2021–2025

LNCT College of Technology, Bhopal

📍 Bhopal, Madhya Pradesh, India

Experience

Full Stack Developer

📅 August 2026 – Present

[Levaras Software](#)

📍 Remote

- Building and shipping production web applications for clients across e-commerce, hospitality, and healthcare.
- Developing responsive, high-performance frontends with Next.js, React, and Tailwind CSS backed by scalable APIs.

Full Stack Developer

📅 December 2025 – April 2026

HaulDrive

📍 Remote London U.K.

- Redesigned the frontend and backend of the fleet platform, improving architecture, **scalability**, and maintainability.
- Built the **Jobs module** to create, assign, and track hauling jobs, plus Operating Licenses management for compliance.
- Designed a central **RBAC system** for fine-grained, role-based access control across the platform.

Skills

- **Programming Languages:** TypeScript, JavaScript, Python, Golang, Java, C++.
- **Frameworks & Libraries:** Next.js, React, Node.js, Gin, NestJS, Socket.IO, SpringBoot, Tailwind CSS, Prisma, Drizzle ORM, Shopify Liquid.
- **Databases:** MongoDB, PostgreSQL, MySQL, Redis.
- **Tools & Platforms:** Git, Docker, Linux, Vercel, AWS S3, AWS EC2, Kubernetes, CI/CD, GitHub Actions, RabbitMQ.
- **Concepts:** REST APIs, WebSockets, WebAssembly, Microservices, Agile, Object-Oriented Programming, System Design.

Projects

[Finalist](#) *Next.js, DiscordJS, Docker, Redis, Postgres, Golang, Gin, TypeScript, REST API, RabbitMQ* [\[Github\]](#) [\[Live\]](#)

📅 2026

- Built an esports platform for hosting scrims and tournaments across **5 game titles** (PUBG, BGMI, Fortnite, Free Fire, and Apex Legends), covering the full lifecycle from registration to results, serving **150+ users**.
- Implemented **auto-slotlists** with waitlists and bans, team rosters with invite links and substitutes, recurring scrim presets, and org-scoped **live leaderboards**.
- Built a **Discord-native layer** with OAuth install, slash commands, and room-details reveals backed by Redis and RabbitMQ.

[Hauldrive-Fleet Management](#) *Next.js, Golang, Gin, Postgres, Redis, TypeScript, Docker, RabbitMQ, REST API* [\[Live\]](#)

📅 2025–2026

- Built a fleet compliance platform for UK HGV operators covering digital walkaround checks, maintenance, driver onboarding, and job dispatch in one system.
- Integrated **DVLA VES, MOT, and licence-check APIs** to auto-populate vehicle records and re-verify licences, and automated PMI, RBT, and tachograph scheduling with workshop booking emails.
- Engineered Go (Gin) APIs on PostgreSQL with **Redis caching** and **WebSocket dispatch**, pushing jobs to the driver app and streaming live status to the manager dashboard.

Client & Freelance Web Work *Shopify Liquid, Next.js, React, Tailwind CSS, TypeScript*

📅 2024–2026

- Delivered **5+ client web projects** across e-commerce, healthcare, and hospitality: built a custom Shopify storefront for [House of Sahani](#) with bespoke Liquid theme sections, collection and product templates, and a custom cart drawer.
- Developed responsive Next.js frontends for [Auresca Care](#) (dermatology clinic with booking), [Heenzzy](#) (footwear ecommerce), [Hotel Moana](#) (hotel booking), and [Coloured Fingers](#) (digital printables with instant PDF delivery).

Chai-lang *Golang, WebAssembly, React, Tailwind CSS, TypeScript* [\[Github\]](#)

📅 2025

- Designed and developed a **programming language from scratch** in Go, implementing lexer, parser, and code generator.
- Engineered the compiler to target **WebAssembly**, enabling client-side code execution in browsers with a React frontend.

sm-go-next *Next.js, Golang, Socket.IO, Drizzle, Cloudinary, Tailwind CSS, TypeScript* [\[Github\]](#) **[In Progress]**

📅 2025

- Developed a social media platform with **real-time messaging** over Socket.IO in a type-safe TypeScript monorepo.

Shrinkr *Next.js, Golang, Zod, Tailwind, Postgres, TypeScript, Docker* [\[Github\]](#)

📅 2025

- Built a URL shortener with custom back-halves, QR codes, **link analytics**, and **Stripe payments**; containerized with Docker.
